Should I contact VA if I have other changes to my information?

Yes. It's important to update your information with us if you change your marital status, have a baby, adopt a child, or experience any other life change that could affect your rating or payment.

If you have a disability rating of 30% or higher, you may be able to add eligible dependents to your VA disability compensation to get a higher payment (also called a "benefit rate").

[Find out how to add eligible dependents \(https://www.va.gov/view-change-dependents\)](https://www.va.gov/view-change-dependents).

If your disability gets worse, you can file a claim for an increase in benefits.
